**FOR IMMEDIATE RELEASE**

**K12USA.com Announces Summer Special: Free One-Year Trial  
K–12 Schools Are Invited to Try Two Fully Featured Help-Desk Tools for \$0.00**

**ISLAND HEIGHTS, NJ, July 15, 2016** — [K12USA.com](http://K12USA.com), one of the nation’s first technology companies to specialize in K–12 schools, launches its annual summer promotion. This year, schools can opt for a free one-year, no-obligation trial of the cloud-based [TroubleTrakkerPRO](#) (IT trouble-ticket-helpdesk system) and/or [WorkTrakkerPRO](#) (maintenance work-order-management system).

The enrollment period begins July 15, 2016 and ends 11:59 P.M. August 31, 2016. Free subscriptions start on the date of signup and extend for a full year. No deposit or credit card information is required, and subscribers have unfettered access to all the products’ features and benefits (in other words, these aren’t limited “test” versions). The Summer Special is available to new TroubleTrakkerPRO and WorkTrakkerPRO customers only.

[TroubleTrakkerPRO](#) is ideal for school IT directors, while [WorkTrakkerPRO](#) provides a solution for maintenance and facilities personnel. Both systems can report, schedule, prioritize, and track tickets from start to finish. And since they’re cloud-based, no hardware or software is needed. Training is a non-issue: The interface is designed to be user friendly, so administrators and their staff can immediately get to work. Setup takes seconds.

“These are simple, easy-to-use tools that our customers love,” says [K12USA.com](#) founder and CEO [James Punderson](#). “They eliminate the need to manually keep track of IT and maintenance work orders, which usually entails sifting through piles of paper, digging through emails, and sorting through voicemail messages.”

As an added bonus, every one-year free-trial subscription to [TroubleTrakkerPRO](#) or [WorkTrakkerPRO](#) will come bundled free with [AssetTrakker](#) inventory-management system.

For more information, visit [www.K12USA.com](http://www.K12USA.com), call 877-225-0100, or email [support@K12USA.com](mailto:support@K12USA.com).

**About K12USA.com:** *Founded in 1999 by former teacher and school IT consultant [James Punderson IV](#), [K12USA.com](#) creates streamlined, intuitive tech tools for K–12 schools throughout the U.S. Their product*
